

# TECH TOOLBOX

This course explores understanding the changing needs and habits of today's consumer and how REALTORS can use technology to find new business, grow and nurture their circle of influence, become more efficient in their daily lives and provide better service to consumers. Plus the legal, risk management and online safety concerns a REALTOR needs to be aware of in the technical world. This course also covers how and what products to buy, how REALTORS can market themselves online, how to use social networking, blogging, listing syndication, smart phone, e-fax and more.
