

eKEY Basic for Android Now Available

November 24, 2010

Dear Supra Customer,

[eKEY for the Android](#) is now available! Turn your [Android phone](#) into a lockbox key in two easy steps. First download the eKEY app from the [Android Market](#). Note that this link will only work directly from your mobile phone. The download is free and it includes a demo version that lets you try all features risk free. Next, purchase a small hardware device, called the eKEY Fob that translates Bluetooth to Infrared. Please note that you must also be enrolled in the eKEY Basic service.

If you are interested in purchasing an eKEY Fob, please contact your Association or MLS. If your Association or MLS does not have them in inventory, you may order an adapter directly from Supra by logging into [SupraWEB](#). The price for the adapters is \$49.95, plus any applicable sales tax and shipping charges.

Key Product Features:

- Use your Android phone as your lockbox key.
- Program lock boxes, change shackle codes, manage lock box inventory.
- Link directly to SupraWEB right from your phone.
- eKEY will update itself, no cradling or extra charging required.

How to Get eKEY for Android

Turning your Android phone into your lock box key is a simple process which involves the following:

1. Download and install the eKEY for Android application from the Android Market. [Click here](#) from your phone, or go to the Android Market and search for "eKEY".
2. Purchase an eKEY Fob from your Association or MLS or from Supra. If you already have an eKEY Fob (if for example you have used it with a BlackBerry in the past) you do not need to purchase a new fob.
3. Obtain an eKEY Basic key from your Association or MLS. They will provide you with an authorization code, a key number, and a PIN.
4. Open the eKEY for Android app on your phone and click on the Activate eKEY button. It will prompt you to enter your authorization code. Once this code is entered, your phone will sync with our system and you will be ready to open lock boxes with your phone!

The links below will take you to several important items associated with eKEY for Android:
